

## Harsh, Gripping Purgatives Are Dangerous!

Cheap, harsh laxatives, may prove very costly. Painful rectal troubles are often the result of the unsatisfactory gripping condition such cathartics cause.

A daily dash of ENO'S "Fruit Salt" is a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

### Our National Parks

On May 10th of this present year, a bill to be known as the National Parks Act passed the House of Commons and was shortly afterwards ratified by the Senate and signed by the Governor-General.

This marked the beginning of a new era for the National Parks of Canada. They have now reached the stage where they are no longer a tentative experiment which entitles them to a separate Act. Formerly they were simply an afterthought administered under the Dominion Forest Reserve and Parks Act. No longer can they be compared to the Forest Reserve which was built upon the sand. The new National Parks Act is the rock upon which will be built a park system of which Canadians for all time will be justly proud. A system which will ensure a system having the stability of a mountain. No longer will the parks be subject to the whims of the fluctuate with the rise and fall of the various political parties in power at Ottawa, because they can never again be made the political policy of any party, but are the property and pride of each and every individual Canadian in this broad Dominion.

By the former Act all matters affecting parks were under the direct control of the Minister of the Interior through the Parks Branch, and an enter-entitled council without the consent or even the knowledge of Parliament established new parks, relinquish all or part of the present parks, sell or lease any water power, timber, mining claim, or other commercial concession in the boundaries of any park.

By the new Act, thirty days' notice of any such matter affecting the parks must be published in the Canada Gazette and then the matter takes the form of a private bill and may be "thoroughly discussed by the people's representatives in Parliament before becoming law. Surely a reasonable way of dealing with park areas which belong not to any individual community or province but to the people of Canada as a nation.

It is well that such protection has been thrown around our great and expanding system of National Parks, because as population increases and the country becomes more and more industrialized, efforts to secure portions of National Parks areas for purposes of commercial exploitation become more numerous and harder to resist. Yet they must be resisted if the beauty, and therefore the value, of our National Parks is not to be destroyed.

As water is the life of all landscapes, lakes, waterfalls and rivers are often, and generally, the chief attraction in a National Park. Destroy their natural beauty, and the park itself is largely destroyed. Nevertheless water power companies become insistent upon securing rights to utilize these water powers for hydro-electric purposes. Already a large area has been taken out of Banff National Park, the Spray Lakes area, for hydro development, and now the hydro interests demand the famous Lake Minnewanka district in the same park.

Once embark on a recognized policy of alienating water powers in our National Parks for commercial purposes and a precedent is established which will be cited by other interests. Our National Parks are rich in forest. With the waters and mountains they constitute the beauty of the parks, without them there would be little or no water. But the lumbering interests look upon them with a different eye, and the water powers are to be exploited by the hydro companies, why not the forests by the lumbering interests?

So, too, some of the parks are rich in minerals. But what would become of these parks if unsightly mine camps with their piles of refuse and derelict machinery were to be permitted to be insuperable from mining camps and towns were allowed to spring up within their borders?

But if the door is opened to commercial exploitation in one direction, it will be well-nigh impossible to stop it in other directions. The water-gates, the forests and the water powers are within our National Parks undoubtedly have a commercial value, but so, too, have the parks themselves in their natural state. The parks are to be preserved for the benefit of the nation in a few years less and in time destroy their value. Cutting forests, mining operations in time would exhaust the lakes, rivers and waterfalls in the National Parks would mean a gradual depreciation in values. But retention of our National Parks in all their natural beauty will add to their commercial value to Canada as magnets which will attract ever increasing numbers of tourists from all parts of the world, while maintaining for Canadians of future generations the delights and benefits of great national playgrounds, places of inspiration, and of health-giving happiness.

It is well, therefore, that the new National Parks Act has become the law of Canada. In this Dominion, as in the United States, we must face the fact that commercialism is the jeet of our National Parks system. The slightly dazed, declared by Washington Irving to be the American god, is the dominating deity. The struggle is between the lower and the higher, the sordid and the ideal.

Speaking for the then president of the United States at the annual opening of the Yellowstone National Park in 1923, Dr. John Wesley Hill said: "Regardless of all facts and figures, arguments, appeals and threats, will be the future history of our National Parks. The commercial exploitation of parks must be for the very nature of its aims and purposes be immediately doomed to failure. Good projects, industrial projects, all projects, all projects must be the same rate, for it is the established policy of the Government that our national parks must be preserved in their natural state, and that they be unpolluted form, not only for the present, but for all time to come. This fixed policy will not be changed by any influence, financial, political or otherwise. If rights are granted to one class, others must follow; so a precedent must not be established. It would inevitably ruin the entire National Park system."

Canada can do no less, and if any attempt is made, no matter in what guise, to infringe upon the rights of all people in their National Parks, they should arise in their might and end any such attempt. The power is now in their hands by virtue of the new National Parks Act.

**Atlantic Sardines**  
Atlantic sardines are the young of the herring which in numerous numbers frequent the waters of the Grand Manan and Passamaquoddy Bay districts in New Brunswick.

## Seek Lower Rate On Cattle Shipments

Negotiation For Decrease In Transportation Charges On Exports To Britain

Hon. Robert Weir, Minister of Agriculture, is in negotiation with the Atlantic shipping companies and the railways in an effort to obtain a decrease in the transportation charges on cattle exported to Great Britain, which will open up this market to large scale shipments from western Canada.

The negotiations have not proceeded far enough to warrant any forecast of results. Mr. Weir, however, has got to the point where he is endeavoring to change the whole basis upon which rates have been imposed in the past.

In regard to the ocean rate, Mr. Weir is endeavoring to have the whole rate basis changed. He wants shipping companies to quote rates by the ton instead of by the head. Such an arrangement would give shippers advantages in shipping stock of various weights. A definite decision in this regard will be reached before long.

Keep Highway Open in Winter

No. 1 Highway Between Winnipeg and Brandon May Be Open For Winter Travel

No. 1 Highway between Winnipeg and Brandon may be kept open all winter for auto traffic it is stated. To combat the heavy snowfalls that closed the highway early in 1929-30 winter months, the department will probably use two large snow plows of new design, with one of the units stationed at the western end of the highway and the other working west from Winnipeg. Should the task of keeping the highway open be too heavy, there is every probability of the Minneapolis-Brandon-Bowman highway being kept open.

For some years now there has been an effort to secure snow-fighting units that would work effectively on the highways. The Retail Merchants Association and the Board of Trade co-operated for two winters in a plan that kept roads open by diverting from neighboring districts open. Since that time the department has been approached to extend a more permanent force for winter road maintenance and plans are now shaping in that direction. In view of the importance of the highway in traffic over the Winnipeg-Brandon highway this route will be first attended to in the new scheme for all-year-round traffic.

Believes Asthma A Little Expense: Thousands of dollars have been spent upon remedies for asthma and asthma. Dr. J. K. Kellogg's Asthma Remedy, so little that it is with reach of all, is the national remedy for asthma. It is removed from the class of doubtful and experimental preparations. Your dealer can supply it.

For Uniform Text Books  
Elimination of Foreign Produced School Text Books Greatly To Be Desired

Reporting extensive activity in the elimination of foreign produced school text books from the schools of the country, the education committee expressed the opinion that there is an ever growing tendency on the part of both the Dominion authorities and the Canadian public to favor wherever possible, text books edited and published in the Dominion and British authors and houses.

From a special committee formed in Alberta, came the suggestion, that since the individual provinces have complete charge of education, the provincial ministers of education could probably formulate a round table conference for the purpose of reviewing the text books situation in Canada and of seeking as much uniformity as possible.

## Set On Top Of World

Men who literally sat on top of the world for a moment are described by W. J. F. J. of the Halifax Observatory in a report just published on the 1927 moon's eclipse.

These men were a far-flung line of Mr. Fred Trappes, meteorologist and hunters in Northern Canada, and at the moment of total eclipse their shadows were exactly of the same round, black shadow of the earth as it slipped over the face of the moon, 240,000 miles distant.

A 100-inch telescope might have shown there the rough outline of the hills around them cast in the upper edge of the shadow on the moon.

"Astronomers wanted to know just how much sunlight passed over this top edge of the world horizontally across the earth's surface atmosphere. To figure this they needed weather, cloud and haze conditions along this rim. George A. Wendt, of the Canadian Westinghouse Company, Limited, established the KDKA short wave broadcast to reach the men on the "rim" by radio.

They were advised two months in advance what the astronomical conditions would be. Months after the eclipse, the men reported the results of their observations. They had already seen of Canada and expressing amazement at the developments which have taken place in transportation facilities in the Dominion. Gordon B. Hoeph of "The Examiner" and "The Weekly Courier," of Lunenburg, Nova Scotia, left Montreal on the "International Limited" for Toronto on the route to Vancouver to sail for home.

Radio and telephone connections to and from moving trains were amazing developments. The first annual convention of the Trades and Labor Congress of Canada at Regina recently.

A resolution approving of the trade union and conference carried unanimously, the delegates declaring their desire to be represented by the agricultural interests of Canada in all great undertakings the objective of which is to strengthen the economic and industrial position of the Dominion among the nations of the world.

## Imperial Conference Considers Problem Of Bulk Purchase Of Wheat

London, England.—With the reply of the British Government to the preference proposals of Hon. R. B. Bennett, Prime Minister of Canada, expected today, the heads of the Imperial Conference settled down to consideration of wheat and other Empire foodstuffs.

The experts of bulk purchase of wheat and other foodstuffs were considered in a general way and the whole subject was referred to an economic committee, under the president of the board of trade, for consideration.

"It was not just a question of establishing import boards which would buy in the world market, as for instance, purchasing Russian wheat," said one British official recently. "On the contrary, the angle from which the delegates are approaching the problem is how best inter-Empire trade may be improved."

The same economic committee, under the Rt. Hon. Mr. Graham, has been authorized to take steps towards bringing together the British and Dominion manufacturers for a conference.

In considering the wheat problem and, with a wealth of information at its command, the committee will not even make an estimate in answer to the oft-asked question: "how much wheat remains in Canada?" Increase of the growth of production by the great wheat-producing countries was reviewed.

The information committee, under Hon. Maurice Dupre, Canadian solicitor-general, studied proposed reservations in the general situation, but prepared to take no action.

The main reservation the British nations would not submit their inter-Empire disputes to an international court.

### Plans Return Flight

Capt. J. Errol Boyd May Attempt Return From England By "Plane" London, England.—Having learned one crossing of the Atlantic Ocean, Captain J. Errol Boyd and Lieutenant Harry B. Cooper now are planning a return trip to North America by aeroplane Columbia some time next month.

Whether they will take off from Croydon, England, or Baldonnel, Ireland, has not been decided and will depend on whether they are able to rise from Croydon with the heavy load of sufficient gasoline.

"If we are unable to rise from here with sufficient fuel," said Cooper, "we would recently, 'we will fly to Ireland and jump from there.'"

### Honor Memory Of Virgil

All Italy Celebrated Anniversary Of Poet's Birth Mantua, Italy.—All Italy celebrated the 2,000th anniversary of the birth of the poet Virgil. Mantua, where he was born, where he lived and wrote; Rome, where he enjoyed the protection and friendship of the Emperor Augustus; and Brindisi, where he died, all joined in rendering the celebration a fit tribute to the immortal memory of the epicist.

### Will Protect Citizens

Washington, D.C.—The U.S. President has been ordered to send troops from Guantanamo to Trinidad, 1,000 miles nearer Brazil, for evacuation of United States citizens in event this should become necessary. State department officials said no orders had been issued to the vessel effecting after reaching Trinidad.

### Government Promises Help

Winnipeg, Man.—Government aid to farmers in purchasing baby-type breeding sows raised by boys and girls' clubs in Manitoba will be granted by the province. Hon. Albert Prefontaine, Minister of Agriculture states. The government will supply three-quarters of the cost, as a loan, in an effort to prevent sacrifice of valuable sows.

### Work On Airship Stopped

London, England.—All reconstruction work on the great airship R-101, which visited Canada in August, has been halted pending the committee's decision on the future of the airship development program.

W. N. U. 1860

## BENNETT SUBMITS PLAN FOR EMPIRE CO-OPERATION

London, England.—"This opportunity for closer economic relations is not being lost," declared Prime Minister R. B. Bennett when he spoke by trans-Atlantic telegraph to the citizens of Canada and mentioned the Empire proposals which he placed, on behalf of the Dominion Government, before the Imperial Conference.

"I shall not refer to the reception of my proposal as received," said Mr. Bennett. "In the near future it will either be accepted or rejected. We can only wait the decision. It will be a momentous one, for I believe and believe, I consider it my duty to say, that if this opportunity for closer economic relations is not seized, it may never come again."

"That I need not say to you," pursued the Canadian prime minister, "is in no sense intended as a threat. It is rather a prediction which, unhappily, I believe to be true. For we must all have regard for the basic changes in the conditions of world trade and realize that in this age of great industrialization and fierce competition the old rules, which in their time were good, may very well now be of the past."

As all the peoples of the Empire now had their troubles, Mr. Bennett believed it would be the part of wisdom that we should come together and search out means by which we might be able to all a new and greater prosperity.

The prime minister spoke of the common traditions and principles of justice and fair dealing which bound the British nations together. He spoke of the great resources of Canada and recorded the resolve to use these wisely and in the happiness and welfare of the Canadian people may forever endure."

Mr. Bennett noted the will to economic co-operation in the Empire and he thought the Imperial Conference would bring forth a plan to foster the prosperity of the whole. He cited the example of France which, after safeguarding its home markets, was in a better position to fight against trade wars and he did not think increasing the Empire market for Empire goods would result in a decrease in the foreign market.

Mr. Bennett spoke of the wealth of Canada's resources. In its prairies, forests, mines, lakes and seas lay incalculable wealth. "It is our resource also," Premier Bennett said, "to use these wisely and in the happiness and welfare of the Canadian people may forever endure."

The problem was to determine what schemes for co-operation would be fair and lasting and of real account to all who joined in it. "Any agreement based on sentiment alone," he added, "cannot be a permanent one. If I ask this country to buy our Canadian wheat, which we must and will sell in the highest and most stable market, and give you nothing but thanks in exchange for this service, you would soon tire of it. Similarly, if Canada gave you goods for your goods in her market and got nothing in return, you would soon tire of it."

Wanted Superannuation Benefit Saskatchewan, Sask.—Charterers of Saskatchewan schools will petition the provincial government shortly for a superannuation scheme, it was decided at a meeting here of the Saskatchewan Caretakers' and Maintenance Staff Association. Delegates were present from Saskatoon, Regina, Moose Jaw, Prince Albert, Young, Davidson and Rosthern.

Vancouver Shipment Increase Vancouver, B.C.—Grain exports from Vancouver for the current crop year to date total 10,629,238 bushels, of almost 8,000,000 bushels greater than the corresponding period a year ago. If this season's shipments the Orient has taken approximately five times the amount shipped last year at this date.

Australians Deported Vancouver, B.C.—Sixteen nationals of Australia and New Zealand were deported from Vancouver on the S.S. Niagara, which sailed recently. In all, 25 would-be immigrants were held up when the Niagara docked here. Six were allowed to land, and 22 were refused entry to Canada.

Ontario Liberal Convention Toronto, Ont.—Date for the coming Liberal convention was set for November 16 and 17, at a conference meeting of Ontario Liberals. Hon. A. C. Hardy, president of the Ontario Liberal Association, presided and W. N. S. Slater, Ontario Liberal leader, was present.

The photograph reproduced above shows His Honor W. D. Ross with two noted guests of government house, Toronto, Ont. Gen. Sir Ian Hamilton (left), British war time hero and champion of peace, and Sir Benjamin Robertson (right), noted Indian expert.

## ACCEPTS NEW POSITION

Hon. C. A. Dunning Appointed Vice-President Of Eastern Province

Montreal, Que.—Hon. C. A. Dunning, formerly minister of finance in the Dominion Government, has accepted the position of vice-president and general manager of "Lucerne-in-Quebec," a new all year pleasure resort and hotel on the Ottawa River, half way between Ottawa and Montreal. The appointment was announced by R. W. Beatty, K.C., president of the organization.

"The directors of 'Lucerne-in-Quebec' make this announcement with a great deal of satisfaction," Mr. Beatty said. "The Lucerne-in-Quebec organization recently took over the old Paspé estate overlooking the Ottawa River, and a hotel on the log, chisel plan, with numerous individual cottages, are being erected. Summer and winter sports will be among the attractions and the project aims at the development of a year around residential resort on a club membership plan."

Adolf Hitler, head of the Fascist party in Germany, which made sensational gains in recent elections, against whom charges of high treason are being instituted, according to a dispatch.

nothing but your knowledge of this preference in return, I fear it could not long continue.

"But if there is an agreement inspired by sentiment and buttressed by definite and lasting and mutual advantages, then it will not fail, for it will be our common wish and for the benefit of each and all to support and sustain it. Under the agreement each of us will be working primarily and properly in the interest of our respective countries and that is the only way in which we may continue to promote the prosperity of the Empire as a whole."

guard our home markets, reduce to a minimum unemployment. We would not, in the foreign markets the excess of our products over home consumption. By increasing the Empire market for our goods we would not, in my opinion, in any way decrease the foreign market, for successful competition is closely related to the question of production, and speaking generally, the greater the production the cheaper is the cost of production.

## Erecting Windless Factory

Large One-Story Building Will Have

Cleveland, Ohio.—Building of a contract for industry's first windless factory building, a \$150,000 plant, entirely without daylight, and embodying radically advanced ideas for scientific creation of artificial lighting, ventilation and other working conditions, is announced by the Austin Company. The structure will be built for the Shindas Saw and Steel Co., at Pittsburgh, Pa. It will occupy five acres and will be one story in height.

Shippings Western Cattle Ottawa, Ont.—The Dominion Department of Agriculture has arranged with a number of ranchers and breeders in the west for a shipment of cattle to Manchester, England. The whole lot of 280 odd cattle has now been secured. The shipment will leave for England on the Manchester City, on October 30.

## ENTERTAINS NOTED GUESTS

Ontario, Ont.—The Dominion Department of Agriculture has arranged with a number of ranchers and breeders in the west for a shipment of cattle to Manchester, England. The whole lot of 280 odd cattle has now been secured. The shipment will leave for England on the Manchester City, on October 30.

Location of the townsite may be altered, it is stated, and until the governing difficulty has been obtained, date for the site-plan cannot be set. Permanently frozen ground at the Bay post office difficulties hindered to unencumbered in municipal development, it is pointed out.

The Dominion Government is busy engaged in building post facilities, railway terminals and, in transferring to the province the portion of Churchill townsite not required for the dock and railway facilities, agreed to fill with gravel and sand the lower-lying, flat, between the railway and the higher escarpment to the east," said Mr. Atwood.

The Dominion has fulfilled its agreement and in part of the townsite selected as the business centre has already deposited some \$50,000 to gravel with the object of preparing a site suitable for the business section of the town. "During the summer plans for the townsite were prepared and recently the provincial government engineers have completed staking out this portion of the townsite, but in so doing they have reported that water conditions are such that make the filled-in area unsuitable as a townsite until such time as some methods are devised to provide proper drainage in the perpetually frozen sub-soil, through which there is no seepage. It will take time as further studies and investigations can be made to solve the problem peculiar to Port Churchill and to provide municipal utilities and services in the town, the province considers the interests of the townsite and the people of the town in the opening up of the townsite until these problems are solved."

## Accepts New Position

Hon. C. A. Dunning Appointed Vice-President Of Eastern Province

Montreal, Que.—Hon. C. A. Dunning, formerly minister of finance in the Dominion Government, has accepted the position of vice-president and general manager of "Lucerne-in-Quebec," a new all year pleasure resort and hotel on the Ottawa River, half way between Ottawa and Montreal. The appointment was announced by R. W. Beatty, K.C., president of the organization.

"The directors of 'Lucerne-in-Quebec' make this announcement with a great deal of satisfaction," Mr. Beatty said. "The Lucerne-in-Quebec organization recently took over the old Paspé estate overlooking the Ottawa River, and a hotel on the log, chisel plan, with numerous individual cottages, are being erected. Summer and winter sports will be among the attractions and the project aims at the development of a year around residential resort on a club membership plan."

Adolf Hitler, head of the Fascist party in Germany, which made sensational gains in recent elections, against whom charges of high treason are being instituted, according to a dispatch.

nothing but your knowledge of this preference in return, I fear it could not long continue.

"But if there is an agreement inspired by sentiment and buttressed by definite and lasting and mutual advantages, then it will not fail, for it will be our common wish and for the benefit of each and all to support and sustain it. Under the agreement each of us will be working primarily and properly in the interest of our respective countries and that is the only way in which we may continue to promote the prosperity of the Empire as a whole."

guard our home markets, reduce to a minimum unemployment. We would not, in the foreign markets the excess of our products over home consumption. By increasing the Empire market for our goods we would not, in my opinion, in any way decrease the foreign market, for successful competition is closely related to the question of production, and speaking generally, the greater the production the cheaper is the cost of production.

## NEW TOWNSITE FOR CHURCHILL IS NOW POSSIBLE

Winnipeg, Man. Settlement of the town of Churchill, Manitoba, on the Hudson Bay, will not be possible next spring as expected, according to a statement by Charles H. Atwood, secretary of the Hudson Bay Company. The statement was made at a meeting of the company's directors in Winnipeg, where it was decided that the townsite of Churchill, Manitoba, is now possible.

Location of the townsite may be altered, it is stated, and until the governing difficulty has been obtained, date for the site-plan cannot be set. Permanently frozen ground at the Bay post office difficulties hindered to unencumbered in municipal development, it is pointed out.

The Dominion Government is busy engaged in building post facilities, railway terminals and, in transferring to the province the portion of Churchill townsite not required for the dock and railway facilities, agreed to fill with gravel and sand the lower-lying, flat, between the railway and the higher escarpment to the east," said Mr. Atwood.

The Dominion has fulfilled its agreement and in part of the townsite selected as the business centre has already deposited some \$50,000 to gravel with the object of preparing a site suitable for the business section of the town. "During the summer plans for the townsite were prepared and recently the provincial government engineers have completed staking out this portion of the townsite, but in so doing they have reported that water conditions are such that make the filled-in area unsuitable as a townsite until such time as some methods are devised to provide proper drainage in the perpetually frozen sub-soil, through which there is no seepage. It will take time as further studies and investigations can be made to solve the problem peculiar to Port Churchill and to provide municipal utilities and services in the town, the province considers the interests of the townsite and the people of the town in the opening up of the townsite until these problems are solved."

Location of the townsite may be altered, it is stated, and until the governing difficulty has been obtained, date for the site-plan cannot be set. Permanently frozen ground at the Bay post office difficulties hindered to unencumbered in municipal development, it is pointed out.

## Philip Snowden Expresses Feeling of Optimism About Future of British Trade

English Shareholders Angry

Shareholders Of Grand Trunk Stock Have Poor Opinion Of British Government London, England.—In an angry mood, holders of preference shares in the old Canadian Grand Trunk Railway met again to receive the report of their representative, H. C. Hawkins, on his recent visit to Canada. Finally they appointed a committee of seven to interview Premier R. B. Bennett and present their claims.

Hawkins told the claimants that when France had altered a French loan contract, Chancellor Philip Snowden had protested strongly. But Canada had gone much further than France ever did, in altering the Grand Trunk contract made in London, the shareholders' claim of 100 per cent. of an investment. Surely this should come within the scope of the Imperial conference, he said.

One stockholder spoke of a "damnable bad trick" and another said the government was not strong enough. "If there is a lower form of human life than the Canadian people, I do not know it," he said. "I know Canada. I have met politicians and farmers, and they are downright crooks. The only thing is to boycott goods."

## Tells Of Slavery Conditions

Lady Simon Says Liberia Commission Report Will Reveal Abuses

London, England.—Lady Simon, who is in Canada, recently announced that the forthcoming report of the commission of inquiry into Liberia would show that natives had been treated as slaves by the American coast guard. Under conditions scarcely distinguishable from slave trading and slave raiding.

Lady Simon, addressing the members of the Conservative Women's Reform Association, said that these abuses had not only been committed not only by private persons, but also by Liberian American negroes, including those in high positions.

She contended that there developed upon the United States and the British and French governments responsibility for coming to the aid of the Liberians, for the total abolition of the system under which abuses exist.

## SUNDAY SCHOOL LESSON

OCTOBER 26

WOLFE'S TEMPERANCE SUNDAY

SPIRITUAL WEAPONS IN A WORLD WAR

Golden Text: "Every man that loveth his father and his mother, and himself, and loveth his neighbor as himself, loveth all things." (Matthew 22:37-39)

Lesson: Galatians 5:13-26 Devotional Reading: Romans 11:1-7

Explanations and Comments Christian Freedom, Verse 13. "Brethren," wrote Paul to the Galatians, "you are free from the Law, but Christian freedom does not mean that you can do as you please. Liberty and license are not synonymous. We do not use your freedom as a license for indulging your lower impulses. We use our freedom to love. Freedom is used here for 'that element of the nature which is opposed to goodness and makes for evil. It signifies the entire power of sin.'"

The Christian Love, Verse 14. Through loving service for others, we fulfill the whole law. "Thou shalt have thy neighbor as thyself." Here we have the law of love. "Thou shalt have thy neighbor as thyself." Here we have the law of love. "Thou shalt have thy neighbor as thyself." Here we have the law of love.

London, England.—Rt. Hon. Philip Snowden, Laborite Chancellor of the Exchequer, expressed at a banquet a feeling of optimism about the future of world trade in general and British trade in particular.

Despite the heavy burden of unemployment, which he said, was costing the nation about \$500,000,000 annually, he prophesied a better conclusion for the financial year than had been produced. He asked parliament to deal with the cost of unemployment by putting the "insurance fund" upon an "insurance basis."

Mr. Snowden addressed a banquet at which there were present the Governor and the directors of the Bank of England, and leading bank and merchants of the city of London.

"I look forward to the time, which you are confident will come, when not only the magnitude of the trade of this country but the magnitude of the trade of the world, will be of a volume which we are not able to conceive today."

Deprecating the spirit of pessimism in Britain, he said that it was a different spirit that triumphed in the past over difficulties as great as those with which the country was now faced.

"A hundred years ago things were quite as bad, or worse, as they are now. But things changed, and the next eighty years mark the greatest period of prosperity and the greatest advance in the history of the world."

"Times will change again. Unhappily we are now suffering less than the other great industrial countries of the world. During the past six months we have maintained a larger proportion of our production than Germany or the United States."

The cost of unemployment to the nation, Mr. Snowden said, was disturbing him almost beyond measure. He estimated from various sources the cost of unemployment at \$100,000,000 annually (\$100,000,000), a necessary but at the same time unremunerative expenditure.

"The exchange expenditure has been raised, and I have to find this year \$21,000,000 (about \$21,000,000) to meet the large number of unemployed persons who have no insurable qualifications."

"I think it is the duty of parliament to face this problem and to put the insurance fund upon an insurance basis."

Mr. Snowden said he intended to do everything possible to avoid the imposition of additional taxes. He prophesied that the ending of the financial year would be a disaster, which had been generally believed.

## Prince Entertains Ministers

Giving Series Of Dinners For Those Attending Imperial Conference London, England. The Prince of Wales is holding a series of dinners for the ministers attending the Imperial Conference to meet the well-known figures of British public life whom they might otherwise not have the opportunity of seeing.

On October 15, His Royal Highness, the Prince of Wales, was accompanied by the ministers who are accompanying him, were invited to St. James' Palace. To Irish Free State ministers were also present and met among others, Rudyard Kipling, the Duke of Athol, and Sir Frederick Jones, chairman of Reuters' News Agency.

Hon. R. B. Bennett, Prime Minister of Canada, was the chief guest at the dinner which the Prince gave on Friday, October 17.

## Armed Bandits Start Payroll

Winnipeg, Man. Armed robbers held up the office staff of the Canada Mail Company, on William Avenue, and the robbers, who had been believed to be about \$2,400. Two men entered the factory office a few minutes before the employees were to be distributed to employees. Clerks in the office were banded into a large vault while the robbers escaped with the payroll.

## Hold By Brigands

Peiping, China.—Frank P. Lockhart, United States consul general, states that Bert N. Nelson, United States missionary of the Lutheran Church, has been kidnapped. His abduction is being attributed to Chinese bandits. He is captured by the fall of the Chinese, southeast, Hsiao, to their forces on October 5. A large ransom has been demanded.

Advice from rural parts are that  
hay fever is under control, but there  
is an epidemic of colds, coughs,  
and influenza.

A last we have some fine weather,  
and the farmers are enabled to get  
back to their job of threshing the  
big-sized-small-price crop of 1930.  
After several weeks of fine harvest-  
ing weather the farmers encountered  
of tough luck when rain and snow  
arrived, but now everything looks  
all right. In this part of Alberta  
you can generally depend upon hav-  
ing a few weeks of fine weather late  
in the fall before real winter sets in.

The choice of a route for the main  
highway through or around Bassano  
has been left over until next spring.  
The route will likely be around the  
town, and if good feeder roads are  
built from the highway through  
town local business men will get  
just as much benefit from the tour-  
ist traffic as they would with the  
main highway going right through  
the town streets.

**FOOD FAIR**  
(Christian Science Monitor)

One of the statements of the Man  
of Galilee that in the past has been  
honestly thought by many to run  
counter to what they regarded as  
common sense and a phase of the  
teaching of modern medicine, which  
none could reasonably ignore is in  
the effect that mortals should "take  
no thought" regarding what they eat  
and drink. It is therefore of in-  
teresting that in the medical  
profession the fact is becoming more  
and more generally recognized that  
this teaching is in the highest de-  
gree sensible and helpful.

A few weeks ago, for instance, at  
the ninety-eighth annual meeting of  
the British Medical Association held  
in Winnipeg, Dr. Robert Hutchison  
of London, England, told the dele-  
gates that the "scientific truth" about  
all this diet business can be put in  
these words: "Eat moderately, tak-  
ing ordinary common sense, and don't  
worry about anything else." To take  
no thought for what you shall eat  
and drink is wise, but to be always  
fussing over it is added. Much  
more along the same line he in-  
cluded in his address, remarks from  
which were published in one news-  
paper under a heading which summed  
up his conclusions with colorful  
alliteration, declaring that the noted  
physician laughed at "food fads,  
caloric counters, and vitamin vi-  
tamins."

More recently a similar line of  
thought forms part of an article by  
Willard J. Stone, M. D., of Pasadena,  
California, in the Journal of the  
American Medical Association. The  
article deals with dietary facts, fads  
and fancies, and in the section de-  
voted to fads exposes a number of  
beliefs as entirely devoid of value.  
Their practical use will be helpful to  
many.

"There has never been the slight-  
est proof that foods which are harm-  
less when taken alone can become  
harmful when taken together in any  
combination. There are the  
varieties of those who believe that  
harm may come from combinations  
of starch foods, such as cereals  
with acid fruits, on the theory that  
such acid prevents the starch-split-  
ting action of saliva."

"There has never been the slight-  
est proof that fruits such as orange  
or grapefruit eaten with milk or  
cereals are harmful. In the same  
category are those who dilute on  
the harm that comes from the mix-  
ture of protein and starch foods,  
despite the fact that a large part of  
our population has, for generations,  
been raised in a fairly successful  
way on meat and potatoes."

"In recent years we have witnessed  
the propaganda for whole wheat  
bread. Its advocates attribute many  
of the ills of mankind to milling the  
grain which removes the bran. They  
assert that white bread is thus de-  
prived of important vitamin con-  
stituents, ignoring the fact that  
those abundant in the bran bread  
has likewise been greatly over-  
estimated. Bran is indigestible and  
irritating. As a constituent of the  
diet it is not necessary for the well  
or ideal for the sick. The cellulose  
of cooked vegetables has much more  
to commend it."

**DE DEPUTITUDE**  
(by Jerry Benedict)

No matter if you live to be  
A hundred weary winters old,  
With great grandchildren on your  
knee,  
And long white whiskers they can  
hold;  
No matter if in senile drams  
You flee a world grown drab  
You'll never know how old it seems  
To be a pugilist at thirty.  
Old age for woman now has shifted  
To well beyond the former limit.  
She has her face re-re-ruined.  
And strives to keep her figure  
slim. It  
Is only when she's bent and slow  
She yields the game and fails to  
strive.  
But here is age few women know—  
A movie queen at thirty-five.  
Parrots, they say, wax full of years,  
And tortoises attain great ages,  
Stolidly watching brief comports  
Decline and pass to history's pages.  
Aged may be the elephant  
Or monster lizard, little and wary;  
Compared with one their days are  
scarce.  
A baseball pitcher nearing forty.

## Life Assurance is the Best Investment

A MAN can create an estate for  
himself of \$1,000, \$2,500,  
\$5,000, \$10,000, or more—all  
dependent upon his position,  
income and prospects. Through  
Sun Life assurance he can be  
sure of reaching this objective  
within a specified time, with  
safety and without loss or im-  
pairment of principal.  
If death should intervene, Life  
Assurance will do what no other  
investment can guarantee—it will  
make the full intended principal  
available at once for his family  
and will carry through the pro-  
gramme that he had planned for  
them.  
The Sun Life of Canada has a  
policy to cover every need.

## Local News

Some of the typhoid patients have recovered, and have been discharged from the hospital. Peter MacLean is getting around again, although he is still weak. Phyllis Calder is quite well now and is back to school again. Hazel Harlow has left the hospital, but she is not yet strong enough to return to her school studies. Christine Wright is still in the hospital, but she is coming along fine.

G. H. Saar was in from Latham last Saturday.

Ernie Skerritt is back to work, although he is not yet very strong.

H. F. McDonald was a business visitor in Calgary last Tuesday.

Elmer Anderson went to Calgary last Friday. He hopes to get work in the city.

John Wallace was in town last Monday from the Nation ranch, formerly the Ogilvie ranch.

The southern Alberta climate is most accommodating. Sunday afternoon Lloyd Leom and Andrew Cathro played tennis and also enjoyed an hour of skating at the little rink.

"Buster" Brown was down last Sunday from Cheade where he is now working.

The other day a representative of The Mail approached Bill Sandbrook with the remark that there was a rumor he was closing his garage and going to Calgary to work for the Great West Airways. Bill said the rumor was no such nonsense, and he figured on staying right here in Bassano for at least another fifty years.

Miss Norma Milroy, graduate nurse, is now spending little Rhea and Bond at the Bassano Hospital.

Wm. McLeane was a business visitor to Calgary this week.

children.

**Gingerbread.**  
This mixture may be put together earlier in the day, if that will facilitate serving it fresh and hot from the oven. It is necessary to treat it carefully if that is to be successful however. Put it into the baking pan, cover with two or three sheets of wax paper large enough to be tied down securely over the top of the pan, and put your cutting board or baking sheet or some solid covering over that and place in the refrigerator to chill thoroughly until time to bake it. Then take off the covers and proceed as usual.

2 eggs; three quarter cup brown sugar; three quarter cup molasses; three quarter cup melted shortening; 2 and a half cup flour; one half tea spoon baking powder; 2 tea spoons soda; 2 tea spoons ginger; 2 tea spoons cinnamon; one quarter tea spoon nutmeg; one quarter tea spoon ground cloves; 1 cup boiling water.

Beat the eggs with add the sugar and beat again. Add the molasses and melted shortening. Mix the baking powder, soda and spices well with the sifted flour and sift these into the egg mixture. Add alternately with the boiling water to the first mixture. Beat well and turn into square cake pan; bake in a moderate oven. 350 degrees. 1 hour.

This is a good substitute for the way to serve hot, as a sweet course at dinner, with a vanilla sauce or with whipped cream.

Enough for Cats and Dogs  
Weather Man—"Put down rain for a certainty this afternoon."  
Aunt—"Are you positive sir?"  
Weather Man—"Yes, indeed, I've got my umbrella. I'm planning to play golf, and my wife's giving a lawn-party."

Duet of Generosity.  
Merchant—"Look here you've been owing me this bill for a year. I'll meet you half way, I'm ready to forget half what you owe me."  
Debtor—"Fine! I'll meet you. I'll forget the other half."

Bassano, Alberta Phone 33

# UNDER CONTROL OR NO CONTROL?

**UNDER CONTROL:** with beer being sold by reputable licensed hotels under government supervision.  
**NO CONTROL:** with bootleggers running rampant as in the old prohibition days.

Reasons why you should NOT sign the prohibition petition urging the government to abolish the sale of beer by the glass or bottle, thus doing away with the beer rooms, clubs, and canteens.

1. The proposal to disturb the act comes from a small body of people whose social instincts have not withstood the test of actual experience.
2. The Trades and Labor Congress are on record as being in favor of the sale of beer-by-the-glass.
3. By virtue of the local option provisions of the act, communities may extinguish a license when a majority of public opinion so expresses itself.
4. No license has been withdrawn as a result of a local option vote either in 1922 or 1923, though licenses attacked were at points where conditions appeared to the prohibitionists, as favorable to a dry result.
5. In a total of 58 local option votes taken since the act came into force only four licenses have been cancelled as a result of vote; and these licenses were, in every case, adversely affected by peculiar local influence.
6. Absence of criticism at the last two provincial elections.
7. Hotel accommodation, particularly at country points, has improved as a direct result of the act, to a standard unequalled in any other province.
8. The general endorsement of the act by the travelling public and the willingness of the public generally to assist in enforcing the act by giving information regarding infractions and interdicting those needing protection from their own weakness.
9. Bootlegging and moonshining have been eliminated as remunerative pursuits. This, together with strict government control, has placed all intoxicating liquor beyond the reach of minors; fewer cases of intoxication in the police courts, in spite of a considerable increase in population. Leave the police of the province free to perform their natural functions, that of protecting the people, not taking up their time trying to enforce what has proved to be unenforceable legislation. Remember you cannot legislate men's minds, because they will never obey a law they do not respect. This was proven in prohibition days.
10. The operation of the act provides a large public revenue (41.2 cents of every 10c expended). This has helped to increase the general revenue of the province and prevent increased taxation. Formerly such revenue went to the bootleggers and moonshiners.
11. Official reports commend the act as eminently practical. They contain no important criticism of the act's clause. Police reports indicate a continuous improvement in the general state of law and order.
12. The real motive prompting the petition is to render the act unworkable by eliminating the retail sale of beer-by-the-glass or bottle; the ultimate aim being a return to total prohibition.

If the beer rooms and clubs are abolished what does the Prohibition Party suggest to take their place? Is it to be liquor for the wealthy and prohibition for the worker?

## ALBERTA RUM IN

### VARIED RESOURCES

A visit to the Peace River country and then to Turner Valley will give one forcibly with the tremendous resources of Alberta, and leads one to believe that the future of the country is bright. The Peace River country, man, passenger train manager of the Canadian National Railway, Winnipeg, who made a business trip through Alberta this month. Mr. Creelman expressed surprise at the development at the oilfield since

he previously visited a year ago.

One of the many interesting things Mr. Creelman witnessed in the Peace River country was the extraordinary interest being taken in turkey raising by the farmers of that district. The climate and conditions generally are ideal for raising turkeys and he saw large flocks of healthy, fine looking birds almost everywhere he went. They are optimistic people and they have the right spirit. They have an excellent grain crop and there is very little evidence of any business depression, as seen by Mr. Creelman.

### Moving Millions

I was warning my little neighbor about being careful crossing streets. "Oh, don't worry," the child assured me. I always wait for the empty space to come by."

### Mendacity Made Visible

The drunk halted in front of an enormous stuffed tarpon in a glass case. He stared at it for a minute or two in silence. Then he said: "The fellow who caught this fish is a—ble—liar!"

## WORLD HAPPENINGS BRIEFLY TOLD

Alexander Harrison, of Philadelphia, one of the most noted United States painters, died recently after a long illness, in his Paris studio. He was 67 years old.

The U.S. weather bureau will issue fire warnings from a radio station near Madison, Wis., during the bare season. It has been announced by the state department of agriculture.

Medicine hat statistics show that only 210 dwellings in the municipality are occupied by tenants, the balance all being owned by occupants, thus establishing most unique Canadian record.

Plans to hold a reunion of the families and descendants of all former Presidents of the United States at the capital is being fostered in connection with the 1932 Washington bi-centennial program.

Canada will produce 4,500,000 hundredweight of potatoes this year, according to a forecast made by the Dominion Bureau of Statistics. Last year Canada's crop was 39,930,000 cwt.

Prohibition of advertising of hard liquor in Manitoba has been ordered by the Manitoba liquor control commission. In future, no advertisements will be approved by the board. The ban has been in effect since the beginning of October.

The association of South African Chambers of Commerce, in their annual congress, urged the government of South Africa to pursue a policy of intensive development of trade with the countries of the British Commonwealth.

Discovery of a Socialist bomb plot against the life of Marshal Joseph Pilsudski, premier of Poland, was announced by the semi-official Izbra Agency, and eight members of the Polish Socialist Party were arrested at Warsaw and accused of preparing the plot.

Two Catholic priests and a plot were killed at Kotzebue, Alaska, when the mission plane "Marquette" crashed. The dead are: Ralph Wien, noted Alaskan aviator; Father Philip J. Dolan, head of St. Ignace mission in Alaska; and Father Walsh, of the Kotzebue Mission.

Samuel E. McColl, of McColl Brothers Surveying Company, has been named director of surveys by the Manitoba Government. He will head a new engineering division operating under the Department of Mines and Natural Resources, formed in connection with the transfer of resources from the Dominion.

### Liked Them Thin

Scientists have unearthed among prehistoric bones near Irkutsk, in southern Siberia, three stone statues supposed to have been made by an ancient race. They show that men of that time preferred thin, feminine figures thin and tall. The statues, carved with skill, indicate that bearded hair was popular at the time they were made.

## DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are not permanent and must be continued. Others are purely cathartic, and others are purely laxative, which remain in the system, acting on the bowels and causing constipation. Some are purely purgative which cause cramps and griping and leave a depressed feeling. Avoid laxatives which only cause the intestines to become lax. Nature's machinery to become lax. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move again, the system is thoroughly cleansed and constipation is prevented. The stomach, liver and bowels are healthy, the system enjoys a real tonic effect. All druggists sell, and cost little.

W. N. U. 1560

## Advertising Is Good Business

And Is Especially Necessary In Times Of Depression

It is a curious fact that the art of advertising at home is of as high a plane as in any country in the world—but manufacturers and merchants do not seem to have developed the faculty of winning the trade of the world how really good their products are. British traders are inclined when bad times prevail, to reduce costs by cutting down advertising, a procedure which has been proved time and again to be against all the principles of good business. As was mentioned in a recent article contributed to our column by a local advertising specialist—"Among experienced advertisers today, it has become an established policy to redouble efforts in bad times, because of the actual results which have been derived in so many instances from the adoption of this policy."—Hong Kong Press.

### World's Grand Exhibition

Managing Director Now Touring European Countries To Create Interest In Show

For the purpose of utilising ministers of agriculture and producing organizations in a number of European countries in the World's Grand Exhibition and Conference to be held in Regina in 1932, John A. Moore, managing director, is now on a tour of the continent. His itinerary includes the countries of Czechoslovakia, Yugoslavia, Bulgaria, Roumania, Turkey, Greece, Italy, Spain, Portugal, France, Switzerland, Belgium and Holland; and he expects to be back in Canada by the middle of November.

### PRETTILY DRAPE

All Tingley models are created and sketched in Paris and the patterns are made in New York.

Delightful draped effects mark many of the new necks and skirt effects, giving almost Greek grace to the vogue dresses.

The model illustrated for today's pattern has a new and charming collar. It is a pretty drape on one side and is caught with a metal brooch or a button, preferably jeweled one if the material is rich silk, satin, crepe-de-chine, marocain, chiffon velvet, etc.

The pattern would also cut charmingly in a racoonie, fur, or any of the newly new designs are to be seen.

To be keeping with the bodice trim, the skirt drape, pretty on one side where the weight of the fulness of stuff just causes the nearest dip at the point. The belt is narrow and self-tie.

This pattern may be obtained in sizes 14 to 20 and 24 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamp or coin) to Fashion Bureau, Write carefully and plainly your name, address, the number of the pattern and the size you want.

## Canada and Higher Education

Twenty-Three Universities and 97 Colleges in the Dominion

There are evidently excellent opportunities for higher education in Canada for both men and women. A recent official report states that there are 23 universities and 97 colleges in the Dominion with a gross student enrollment by universities of 57,254 and by colleges of 25,317. It is not uncommon for a student to be taking part of his work in a university and part in an affiliated college, and so is reported by both institutions. With these duplications eliminated the net total of students enrolled is 72,572 of whom 46,354 are males, and 25,788 are females. Almost exactly 50 per cent, or 36,800 are engaged in the study of university standards. Of these 23,543 are men and 12,485 women.

The 57,254 students in universities are composed of 41,087 full-time, 499 part-time, and 12,668 short course, extra mural and extension students, with 927 duplicates between groups.

The popularity of Canadian universities and colleges among students of other countries is indicated by the report giving the place of residence. There were last year 1,741 from the United States, 422 from the British Isles, 50 from the British West Indies, and 476 from other countries.

In a total of 6,772 degrees, licenses and diplomas granted by universities and colleges last year, 2,427 or 35.7 per cent, were conferred on women and 4,345 on men. The most popular degree with both men and women is Bachelor of Arts, the next in order being men is M.D. and B.S.

The University of Laval, Quebec City, has the largest enrolment of students with 10,780, followed by the University of Montreal at Montreal with 10,776. The University of Toronto is in third place with 9,267, and McGill, Montreal, fourth with 4,436. Total assets of Canadian universities amount to \$129,060,664, and the total income is \$15,074,337.

The teaching staff numbers 4,212 of whom 1,677 are men and 2,535 are women. In the colleges there are 2,016 teachers, of whom 1,872 are men and 144 are women.

**Eskimos Are Prosperous**  
Some Families Got Large Sum For White Fox Fur This Year

The romance of the Arctic was related by the crew of the Hudson Bay Company boat "Baychino," when their vessel arrived at Vancouver after a season spent in the northern ocean. The northland is dotted with radio and the Eskimos are flying around in aeroplanes, they said.

But perhaps the romance has only changed its form, as may be judged by the items of gossip which the "Baychino" brought back. There are tales of Eskimo families in Banksia land who got as much as \$40,000 this year for their white fox furs.

The Arctic Circle was dotted with flying machines this summer. There were twenty planes at Herschel Island and others at Esperanza and Bathurst. The hunt for minerals is rivaling the hunt for the fur bearing animals. And the vehicle of the prospector is the plane.

The "Baychino" men relate that when they took back Estana, half Indian daughter of Captain Christian Kellogg, of Vancouver, to the Arctic she was received by her aged mother and by the natives as a goddess. Estana spent last winter in Vancouver, receiving medical treatment. She is widely known in the north for her work among the Eskimo women and for all-around ability as a woman of the north.

## The Changing Times

Moore Factory, Once An Outpost, Is To Be Railway Terminal

Only a few years ago three American billionaires got down up to the Moose Factory, and the whole world thought they had drifted beyond civilization. As a matter of fact they were not. They were there to build a road, a few Indian and fur trappers.

Now we read that steel of the T. & N. O. Railway will be carried to Moose Factory by August 15 next, that the place is to be a railway terminus and a port, that it is to have a modern hotel with 300 rooms.

The world certainly does move. And no part of it moves faster than the wonderful north country, which recent years have unveiled. It seems yesterday when the people of Ontario, or some of them, were saying that the T. & N. O. Railway would be a white elephant, that it would never pay for its axle-grease; today it is one of the great assets of the province; has opened up and developed regions in which past generations never dreamed.

A hotel at Moose Factory? And what of the Hudson Bay? The company came down there 10 years ago, they thought it was the end of the world—Ottawa Journal.

**Recipes For This Week**  
(By Betty Barclay)

## SCALLOPED TOMATOES

Drain one can tomatoes from some of their liquor. Season with salt, pepper, a few drops of onion and two teaspoons sugar. Cover the bottom of a buttered baking dish with buttered bread crumbs. Sprinkle top with buttered crumbs. Bake in a hot oven until crumbs are brown.

## LEMON TAPIACA SHERBET WITHOUT FREEZING

4 cups quick-cooking tapioca.  
1 cup sugar.  
2 cups lemon juice.

Put tapioca, sugar and water into double boiler, and cook, stirring often, until clear. Three minutes before removing from fire add lemon juice. When cool and beginning to thicken, add the stiffly-beaten egg whites, and beat well. Serve with boiled custard or heavy cream.

## Should Check Up Unemployed

Some May Not Be Deserving Of Government Relief

Unemployment figures in urban centres are augmented each winter through the migration of men who work steadily on farms in the summer and rather than accept a smaller wage for the winter months or perhaps merely comfortable board, they journeyed cityward in the hope of sharing in the jobs handed out by benevolent employers. Urban municipalities should keep a close check on these migrants and refuse to increase the burden upon their municipalities and the country at large by maintaining these men in semi-idleness for five months out of the year.

It will be grossly unfair to taxpayers everywhere if part of the twenty million dollars appropriated by the Dominion Government and the thousands of dollars that are added to it by the provinces and municipalities is used to maintain the migratory class of labor who has been offered winter employment and turned it down in order to share in the millions voted for unemployment relief.—Farmer's Advocate.

## Advocates Clothing Reform

College Professor Thinks Men Should Wear Dresses

Men should wear dresses, Prof. Albert Hinchey, of the University of Illinois College of Medicine, advises.

For health and comfort the ideal proportion for men is to be as slender as a reed, without binding collar or belt, he told the American Physician Association recently.

"The man, under our garments," he said, "is practically always living in a tropical climate. Women's clothing is much more reasonable. There are two ways I would suggest to improve our clothing. Either it could be made in the style of the most possible of one layer, or it could be worn very loosely."

**Find Us For Munkies**  
May Establish Industry To Produce Insulating Material

An American company with headquarters at Minneapolis, is investigating commercial uses for the northern muskies with a view of establishing an industry in producing insulating material. The prospect of using muskie as an insulating material has been taken up by a group of men in the north. The men are of the opinion that muskie is a better insulator than the log cabins of trappers and prospectors in the northern areas of Manitoba and Saskatchewan. The men have been packing with the log material for years, keeping out both the freezing blasts of the northern winds and the burning sun of northern Manitoba, to the entire satisfaction of the owner of the cabin.

No such information has been obtained regarding the investigations by the American firm of the industrial use of muskie, but early in the spring a substantial shipment of the muskie left here for the south.

## Build Big Bridge

Structure Over One Thousand Feet In Length Being Erected At Brouseau, Alberta

Work on the steel superstructure of the new traffic bridge across the Saskatchewan River at Brouseau, Alberta, which is being built by the Department of Public Works, has begun. The bridge is the largest that the department has built for several years, and will be one of the largest in the province, running to something over a thousand feet in length.

**Less Crime In Britain**  
Several Prisoners Are Closed For Lack Of Occupants

Crime in Great Britain has deteriorated so much that prisons are operating far below capacity, and several have actually closed for lack of occupants, states Dr. Higgins, medical officer of the prison at Liverpool, who arrived in New York recently.

He attributed the decrease in crime to the system of swift justice, strict laws, requiring the closing of saloons at certain hours, and to the fact that a prisoner or a person fined for an offence is kept under close surveillance after his release or payment of the fine.

He attributed the decrease in crime to the system of swift justice, strict laws, requiring the closing of saloons at certain hours, and to the fact that a prisoner or a person fined for an offence is kept under close surveillance after his release or payment of the fine.

There was great excitement aboard the liner.

"Man overboard!" was the cry. "Gentlemen overboard," said Mrs. De Shobbe. "That's my husband."

Pencils are being sold by vending machines in Czechoslovakia.

World production of sulphuric acid was \$2,500,000 tons a year.

## Planning New National Park

Proposed Site Is In Manitoba Near Clearwater Lake

The northern Manitoba minister has already established to the commercial field will have the furthest north national park in Canada if plans of The Post Office of Trade and Commerce are carried to fruition. A committee of prominent northerners is now engaged in taking the matter up with the Federal Government, left off a few years ago.

The proposed site for the reservation is in the Clearwater Lake region. The lake is at Mile 17 on the Hudson Bay railway and is the most popular resort north of 52°.

The national park agitation dates back several years, and it arises upon through the transfer of natural resources to the province of Manitoba. Word has been received from Winnipeg that the provincial authorities intend to reserve the park site, and it is possible that the boundaries of the reservation will be marked out next year.

In the federal survey, no provision was made whereby holiday-seekers could take to lands to build cottages. The survey has been made this summer has sprung up on property not apart for park purposes, and the problem today is to map out the land and to build cottages in the resort area.

In the board of trade committee will investigate the whole situation, and after a report has been made to the board the matter will be presented to the Minister of the Interior.

Clearwater Lake is an ideal summer resort in the hinterland. During the month of June, in the summer, the water is warm enough, and several water fishing and boating are excellent. At present, the only connection with the sea is via The Hudson Bay railway, but a motor road survey has already been started and the highway is expected to be completed by next summer.

**Yukon Big Game**  
Yukon Territory, Canada, is the paradise of big game hunters and no place on the North American continent today offers greater inducements for the variety of big game and for the dimensions of the trophies to be secured. Mountain sheep, moose, caribou, and bear are abundant. The moose are of the "giant" species, and bear includes black, brown and grizzly.

When coffee was introduced into Europe as a novelty, it was said to be an effective remedy against hysteria and toothache.

## USES PINKHAM MEDICINES

Praises Vegetable Compound, Blood Medicine and Liver Pills

Birkton, Quebec—"I live 13 miles from town on a farm, with all my home duties and churning to attend to. At the change of seasons I become nervous and run down. The Vegetable Compound helped my whole system. My nerves are better, my appetite is improved, and I am able to do my work. I have my blood purified by the Blood Medicine and the Liver Pills and they helped me. I will never leave from women taking about your medicines. I have tried them all. Birkton, Quebec."

There was great excitement aboard the liner.

"Man overboard!" was the cry. "Gentlemen overboard," said Mrs. De Shobbe. "That's my husband."

Pencils are being sold by vending machines in Czechoslovakia.

World production of sulphuric acid was \$2,500,000 tons a year.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and durable, easy to cut and fit. It withstands extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BLOOD HOUSES LAYING PENS DAIRY BARNIS SUNBURNS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Dr. A. J. Colleton, who is a  
patient in the local hospital, is now  
coming along all right. He has  
not yet recovered the use of his  
left arm, but his improvement is  
satisfactory.

Two births are reported from the  
Bassano Hospital this week; they  
are: a daughter, to Mr. and Mrs. A.  
C. Brown, of Lathrop, on Oct. 21;  
a daughter, to Mr. and Mrs. H. J.  
Greer, of Cassin, on Oct. 21.

The annual harvest and thank-  
sgiving service will be held in the  
Anglican Church on Sunday evening,  
October 23, at 7:30 o'clock. All  
heartily welcome.

Jon. B. Finlayson, of the White  
Ash mine, is ill and has been obliged  
to discontinue his work. He has  
gone to Calgary.

The Women's Missionary Society  
of Knox Presbyterian Church will  
hold a tea and sale of home-made  
candy in Currie & Milroy's store on  
Saturday, October 22, from 3 to 6  
o'clock p.m.

#### CRAWLING VALLEY NEWS

Mr. and Mrs. R. B. McKinney  
were dinner guests at the Thew home  
on Sunday.

Roy Robson made a rush trip to  
Bassano on Thursday, 22, to see Walter  
Peake in to see his wife, who was  
very sick in the Bassano Hospital.  
Saturday reports were that she was  
improving. All her friends wish her  
a speedy recovery.

Mrs. R. Robson made a trip to  
Dorothy Tuesday morning of last  
week.

Mr. Robbins and Roy Robson  
made a trip to Dorothy on Thursday,  
walking across on ice.  
Mr. and Mrs. H. B. McKinney, son  
Harold, Miss Gladys Thew, and Mrs.  
H. Robson and daughter, went to  
Dorothy on Monday of last week.

Mr. and Mrs. Blain Robson were  
upper guests at the McKinney home  
last week.

Mrs. W. R. Whitney, Mrs. Roy  
Robson, and Trella Mae were Bas-  
sano callers on Saturday.

Mr. and Mrs. Roy Robson and  
baby and J. Robbins were dinner  
guests at the Whitney home on Sun-  
day.

Mrs. "Inch" Bryant, who went  
to a Chicago specialist for asthma  
treatment, is much improved, and  
her many friends wish her a pleas-  
ant trip home.

Baby Robson has been very much  
suffering the weather for some time  
with a bad thumb. It is much im-  
proved since it was lanced.

W. H. Whitney shipped seventy-  
four head of fat cattle on Monday.  
Mr. and Mrs. H. B. McKinney  
were visitors at the Robson home  
on Sunday of last week.

Mr. and Mrs. Frank Thew were  
Friday and Saturday visitors with  
Mr. and Mrs. Neils Smith at Make-  
peace.

#### Useless Rheumatism

An old Scottish woman, who had  
never been known to say an ill word  
about anybody, was one day taken out  
with a bad thumb. It is much im-  
proved since it was lanced.

"Janet," he said impatiently, "I do  
believe you'd say a good word or two  
for his devil himself."

"Ah, well," was the reply, "he may  
as be as good as he is much better, but  
he's a very industrious body."

#### Why No Bus-Muffs?

"Mummy, you bought slater a piano  
so buy me a bicycle."  
"What for?"  
"So that I can go riding while she  
practices."

#### His Ail

The Altona (Kan.) Tribune re-  
ports a citizen of that town who ap-  
pears on the porch of his home when-  
ever his starts singing so the neigh-  
bors can see he isn't whispering her.

#### He Knows Better

"We have been married a year and  
never quarrelled. It is a difference of  
opinion arises, and I am right, Felix  
always gives in immediately."  
"And if he is right?"  
"That never occurs."

#### Words, Words, Words.

The teacher was putting questions  
to the class. "What do you call a man  
he asked. "A talker." "On talking  
when people are no longer interest-  
ed?"  
"Please, sir," replied a boy, "a  
teacher."

#### KNOX PRESBYTERIAN CHURCH
